WORK EXPERIENCE

Freelance Frontend Developer — React.js & Next.js | January 2024 – Present | Remote

- Architected and deployed 10+ responsive web applications across e-commerce, real estate, and education sectors using React.js, Next.js, TypeScript, and Tailwind CSS; optimized web performance achieving 30% faster page loads and Lighthouse scores of 95+ through code splitting, lazy loading, and image optimization.
- Implemented scalable state management architectures using Redux, Zustand, and React Query (TanStack Query); integrated RESTful APIs with Axios; built SSR and SSG pages with Next.js for optimal SEO and performance; delivered multilingual (i18n) apps using next-intl with Dark/Light mode support.
- Ensured cross-browser compatibility and WCAG/ARIA accessibility compliance across all projects; achieved 95% UI bug fix rate; boosted organic traffic 15% via SEO best practices (semantic HTML, meta tags, structured data).
- Collaborated with designers and back-end developers in Agile/Scrum methodology using Git/GitHub for version control and CI/CD pipelines; delivered scalable, component-based architecture solutions on time across all client projects.
